

Teammates: Nicole Cojuangco, Alicia Wade, Seth Adams

Dear families, students and staff,

Safety and the health of our school members are a priority to us all. We want take every opportunity to ensure everyone's safety. During this height of Coronavirus pandemic, our school has considered the use of the contact tracing app. Our school has decided to NOT use the contact tracing app.

There are concerns regarding security and privacy issues. We question how the app is controlled by the company and how the privacy policies are protecting our information. It becomes unclear as to how much information is shared and can be accessed by third parties.

In order for the contact tracing app to become successful, we would need the school community to fully participate and agree to sharing Covid health status. It is possible to have a percentage of members who can not participate and can affect the use of the app to its fullest potential.

Even without the use of the contact tracing app, we strive to ensure the safety of all our families, students, and staff. Usual health procedures will continue to take place and we will continue to maintain healthy and safe environment for all our school members. If you have any questions or concerns regarding this matter, please feel free to contact us.

Yours truly,
Principal
